ED Provider Notes (continued)

ED Provider Notes by Priscilla Henson, MD (continued)

07/13/26 0357

Open displaced fracture of phalanx of toe of left foot, unspecified toe, initial encounter^[PH.2]

This patient required the following parenteral medications:^[PH.1] Ancef^[PH.3]

The following medications, which require intensive monitoring due to high risk of morbidity/mortality, were given or considered:^[PH.1] NA.^[PH.3]

Procedures:^[PH.1]

Laceration Repair:

Location: left fourth and fifth toe.

Laceration length and type: 3 cm jagged, 2 cm linear

Suture type and size: 3-0 Nylon.

Number of sutures: 6, 2

The wound was cleansed with normal saline irrigation under pressure. Wound exploration reveals no significant vascular, tendon, nerve injury or foreign body. Local anesthesia with lidocaine. Wound was repaired under sterile technique. Patient tolerated the procedure well. Patient remained neurovascularly intact after the procedure. Patient was counseled to follow up in [5-7] days for suture removal. They are to keep the wound clean and dry and minimize sun exposure. If they develop any fever, purulent discharge, increasing redness, pain or swelling they are to return immediately to the ED for re-evaluation for wound infection.^[PH.3]

Consultations: The case was discussed with the following providers:^[PH.1] NA^[PH.3]

Critical Care:^[PH.1] NA^[PH.3]

Sexually transmitted infection screening, including syphilis was offered if appropriate.

FINAL DIAGNOSES:^[PH.1]

Final diagnoses:

Open displaced fracture of phalanx of toe of left foot, unspecified toe, initial encounter^[PH.2]

Secondary Diagnoses: The patient is suffering from the following comorbid conditions which complicate their care and may put them at higher risk:^[PH.1] lower extremity neuropathy.^[PH.3]

Social Determinants of Health: Additionally the patient's health is significantly affected by certain social determinants of health including:^[PH.1] NA^[PH.3]

DISPOSITION:^[PH.1]

Discharge: Counseled on appropriate follow up. Discharge instructions and return precautions given. All questions answered.^[PH.3]

Prescription management:^[PH.1] NA^[PH.3]
