MODE OF ARRIVAL:*Law Enforcement***HISTORY OF PRESENT ILLNESS:**

26 year old male presents with law enforcement for medical clearance. Patient states he has scrapes on his legs from "walking through the bushes." He denies being involved in a car accident tonight. Per report from NHP, he was in a car accident and the car rolled. Airbags were deployed. Patient report they walked a couple miles to his parents residence who then brought him back to the scene of the accident. Patient denies any significant pain or injuries. He denies any abdominal pain. He reports a history of asthma but denies any shortness of breath. He denies any neck pain or loss of consciousness. He refuses any medical imaging at this time.

PAST MEDICAL HISTORY:^[DH.1]**Past Medical History:**

Diagnosis	Date
- Anxiety - Asthma (HCC) - Depression - Lactose intolerance^[DH.2]	

MEDICATIONS & ALLERGIES:**Medications:****Current Medications**^[DH.1]

No current facility-administered medications for this encounter.

Current Outpatient Medications:

- albuterol (PROVENTIL HFA; VENTOLIN HFA) 108 (90 Base) MCG/ACT inhaler, Inhale 2 puffs into the lungs every 4 hours as needed for wheezing., Disp: 18 gram, Rfl: 5
- triamcinolone (KENALOG) 0.1 % cream, Apply topically to affected area 2 times daily as needed., Disp: 30 gram, Rfl: 1

MEDICAL DECISION MAKING:

26 year old male presented with law enforcement for medical clearance for incarceration. Vital signs were within expected range for patient's age and the situation. He denies being in a motor vehicle accident. Based on the abrasions and his demeanor, I suspect he likely was in the reported car accident. Patient had a reassuring exam. However, due to the reported mechanism of injury, I did recommend imaging. I also suspect that he is likely intoxicated. However, patient declines any medical workup at this time. Patient was medically cleared and discharged with law enforcement.

Source: History was obtained from patient

External Medical Record Review: I did not review any external records

Labs reviewed: N/A.

Imaging: I independently interpreted the patient's imaging studies: N/A.

Consultations:

Case was discussed with the following providers: N/A.

Details of any discussion with consultants included in MDM.
