Abnormal Results: Last 24 Hours: No Labs Available

Lab Results: Last 24 Hours: No Labs Available

Ordered Meds List: No Current Medications Available

Radiology:

Shoudler Xray: no acute fracture/dislocation

MDM

The patient is well appearing, and nontoxic. After careful history, physical exam, vital signs, and review of any laboratory or diagnostic data as ordered, I made the decision the patient does not appear to have a life threatening illness and can be carefully discharged with close follow-up. I do not feel any further imaging or laboratory data is needed at this time. I have considered both emergent, urgent disease pathology.

I have given written and verbal discharge instructions.

Patient advised of the importance of following up with their PCP concerning findings, treatment, and status post treatment. Extensive conversation with patient regarding findings, differential diagnosis, return precautions and treatment plan. Patient was educated on any prescriptions and proper usage as well as the importance of following up

with primary care in a timely fashion for ongoing health and wellness management. The nursing staff has reiterated the disposition plan as well.

Diagnosis Today

Problem: Strain of unspecified muscle, fascia and tendon at shoulder and upper arm level, left arm, initial encounter,
ICD Code: S46.912A, **Status:** Active, **Addressed Date:** 07/02/2026

Plan

Take Tylenol/Motrin over the counter as directed for pain or fever

Return immediately for any unexpected change in your condition

Thank you for choosing our Emergency Department for your healthcare! Please take your medicines prescribed as directed and be assured that you follow up with the physician provided or your PCP in the next 1-2 days to assure you are improving. All medical problems cannot be reasonably diagnosed in your ED visit today. Return for any changes or concerns, including if your condition does not improve or you are unable to obtain follow-up. Some final results, including radiology and laboratory reports, do not return the same day, but are available on the patient portal or can be obtained through your PCP.

Discharged home in stable condition
